

XTEND COAT

Xtend coating is the optimum High-Performance PVD coating that will extend tool life and increase production on all your cutting tools. Get Longer Tool Life with XTEND COATING.

Apply our coating over tooling you have in house and make them last longer and flat out just work better.

Reduce valuable downtime and the amount of new tooling you purchase each year!

- Hardest PVD coating on the market @ 92Rc+
- Superior lubricity - .027 Coefficient of Friction
- Heat resistance - approx. 2000 F (that's over twice the strength of TiN)
- 65% Stronger than ALTiN coating, Excellent for Nickel Alloys
- Make your tools perform in more than 1 material
- Reduces material welding and galling while increasing chip-flow evacuation. The #1 coating for Aluminum.

Coat Cutting Tools, Wear Parts, Punches, Dies, Thread Mills, Inserts, Machine Parts, anything you want to reduce friction, increase lubricity, extend tool life and increase production. Exceptional performance on high feed milling tools and High Performance Drills.

NO MINIMUM LOT CHARGES ~ 1 WEEK TURN AROUND
